

Rosa Parks Family Focus on toilets

Feedback from all the families

Toilets:

- 1M said they are a bit smelly
 - 2C too many children mess around in the toilets. Move the fire alarm so children can't reach it
 - 3M Can we have a poster reminding children how to use the toilets. New flooring needed and water too hot. Sign when the floor is wet
 - 4Mc Flushers not always working. Need to be cleaned more. Children put rubbish in the toilets and the taps don't always work
 - 5T Urine and tissues on the floor
 - 6M Food in the toilets and children look over cubicles. Put an air freshener in. Stop children drawing on the walls
-
- Some of the flushes don't work properly
 - Sometimes children are playing in the toilets (Ks1)
 - 3S water is sometimes too hot and the toilets aren't clean
 - 4P says that some children do not flush the toilets and there is an awful smell. Some cubicle doors don't shut and some taps don't work properly
 - 5P some children do not flush the toilets and leave tissue on the floor. Some toilets have writing on the wall or have food in them. Some leave the plug in and the tap on so the sink overflows.
 - 6W some of the toilets are dirty- they are messed up within 10 mins of cleaning. People look under the cubicles
-
- 1H want more hand-driers
 - 2P some children like to play in them
 - 3B Some children do not flush the toilets
 - 4R water is too hot and the floors are dirty. Taps take too long to turn off
 - 5B Sometimes no locks on toilets and they are dirty. Sometimes no paper to dry hands
 - 6P Toilet seats are loose and the temperature of the water is not consistent. Boys don't find them private. They flood and smell and get blocked easily. Children hang out in the toilets
